

Disasters triggered by natural hazards are unpredictable. Being prepared helps people to respond better and recover faster. We all need to be ready and know what to do.

Person-Centred Emergency Preparedness (PCEP) Toolkit

An all-hazards approach to enabling emergency preparedness in others.

The PCEP is a strengths-based tool that supports people with a disability to be equal partners in the self-assessment of their functional capabilities and support needs in 8 capability areas:

The PCEP toolkit enables people to have a plan and communicate it with their support network.
